Hello all, attached is the text from the Ecological Risk Assessment Sections of the Draft ROD for your review and comment. Please disregard the Eco Sections of the Draft ROD (Sections 14.2 [Summary of the Ecological Risk Assessment] thru 14.2.12 [Conclusions of the Ecological Risk Assessment]) I forwarded to you on 08/17/11, since the table and figure numbers do not correspond to the table and figure numbers from the Table of Contents (TOC) of the Draft ROD.

Also, note that Figures 4 (Ground Water Investigation Locations), 5 (Potential Source Areas), 6 (EM Survey Transects and Data), and 7 (Intracoastal Waterway RI Background Sample Locations), from the other portions of the Draft ROD and reflected in the TOCs, are duplicated in the Eco Sections of the Draft ROD (I have already forwarded these figures to you). Please review the headings of the figures and tables to ensure that you are reviewing the correct tables/figures mentioned in the text of the Eco Section. This duplication was unavoidable since we did not receive the tables yesterday and the figures today that pertained to the Eco Section of the Draft ROD. Sorry for any confusion this may cause.

Please call me if you have any questions or comments concerning table and figure numbers.
